

## **Curriculum and Instruction/Teaching and Learning**

Develop a PreK-12 curriculum that is skills-based and content rich to provide a student centered, critical thinking and multi-disciplinary approach that drives teaching and learning in a manner that is adaptable and responsive to real world applications.

### **Objectives**

1. Provide professional development that enhances teacher competency and skills.
2. Expand curriculum to include PreK classes that make our children K ready across the district.
3. Continue to invest in instructional and technological literacy and fluency to support teaching and learning.
4. Support learning differences by encouraging multi modalities.
5. Expand learning opportunities by reaching out to community experts.

## **Social-Emotional Learning**

Create an inclusive environment that embraces a culture of diverse thinking and emotional strength through visionary risk-taking.

### **Objectives**

1. Cultivate meaningful connections to real world situations including building relationships between peers and faculty.
2. Increase opportunities to engage and educate families on social and emotional learning.
3. Incorporate real life skills into curriculum and model adaptability, flexibility and resiliency.

## **Communications and Community Engagement**

Implement a comprehensive state of the art communications strategy for students, staff, parents, and community members with real-time information on all issues relating to the entire school district, our children and their schools.

### **Objectives**

1. Utilize existing community resources
2. Partner with existing organization such as rotary and local government
3. Expand media pipeline and options (newspapers, radio, tv, cable)
4. Continue with community programs (i.e. programs for seniors)
5. Streamline website with more useful information for internal and external communication
6. Make district the "HUB" of the communities
7. Increase school and district UNITY: parents, students and staff

### **Facilities**

Manage and enhance current facilities and grounds to deliver state of the art educational programs (short term goal)

Explore opportunities to facilitate a more cohesive and unified District through the possible creation and management of new facilities (long term goal)

### **Objective**

1. Evaluate thoroughly and communicate clearly the results of the recently completed facilities study

### **Finance**

Communicate effectively the needs to manage responsibly, a multi-site district
